Delighting You Always

Colour Pigment Ink

Take Your Prints to New Heights

Elevate every printout by using Canon's latest GP series printers. Equipped with impressive new technology and ink capabilities, discover reliable, vibrant results with superior image quality for photos, posters and other types of media.

Stunning Colours & Results

With the new LUCIA PRO II pigment ink system, prints are more vibrant than ever - providing enhanced image quality for both photo and poster printing.

Vibrant Quality That Shines

Enjoy stunning colour expressions for photo and poster printing thanks to the printer's orange ink and grey ink output capabilities.

VIVID PRINTS WITH ORANGE INK

Draw attention to key details in your posters or photos with the printer's orange ink capabilities, which help printouts look visually appealing while offering greater colour accuracy as well.

SMOOTHER GRADIENTS WITH GREY INK

The printer's grey ink capabilities help your posters and photos achieve greater depth and nuance by offering enhanced colour accuracy alongside smoother transitions between the dark and light areas within your printout.

Enhanced Durability for Prints

Enjoy easier handling and longer-lasting vibrant results for printed photos, posters and other images.

LIGHT RESISTANCE

The improved light-resistance found within prints allows you to store them for an extended period of time without their vivid colours fading.

SCRATCH RESISTANCE

Worry less about your photos and posters as well as glossy or semi-glossy media being damaged physically with the printer's scratch-resistant capability, which keeps them safe from potential mishandling and scratches that might be caused during printing.

Borderless Prints

Photos & posters can be printed without any borders on multiple sizes of roll paper, ideal for meeting any form of printing need.

Aligned With Convenience

Printhead alignment is automated with the printer, saving you time from having to adjust it manually as well as reducing ink and paper wastage from potential failed test prints.

FINE Print Head

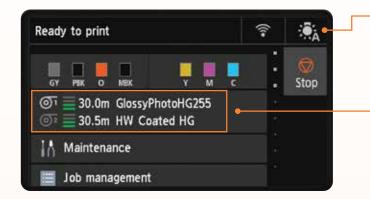

With FINE (Full photolithography Inkjet Nozzle Engineering), finer details & good print quality can be achieved for photos and posters with a high resolution reproduction of up to 2400 x 1200 DPI.

Designed for Maximum Efficiency

The printer is designed to offer an easier user experience while seamlessly fitting into environments visually.

INTERIOR LED LIGHT

The new interior LED lights can be turned on during the printing process.

PANEL USABILITY

The printer's panel comes with a user interface that allows you to easily tell the amount of roll media remaining.

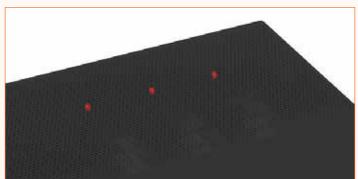

ADD ROLL MEDIA SIZE INDICATOR

Easily check the size of roll media with the indicator.

LED LIGHT VISIBILITY

A transparent material is used for the ink tank's cover, providing for greater LED light visibility.

Optimising Every Workflow

The printer comes with a wide variety of versatile software designed to streamline your workflows.

PROFESSIONAL PRINT & LAYOUT

The Professional Print & Layout software allows for easier professional photo printing by providing functions such as a preview of your prints before printing, black and white colour adjustment alongside setting out layouts.

MEDIA CONFIGURATION TOOL

Spend less time configuring custom paper setups with the Media Configuration Tool.

POSTERARTIST WEB

Design visually appealing posters effortlessly with creative templates offered by PosterArtist Web.

FREE LAYOUT PLUS

The Free Layout Plus feature allows you to resize files to fit paper layouts while providing a preview before printing simply by dragging and dropping them.

ACCOUNTING MANAGER

Manage and stay up to date on print usage for either individual or multiple large format Canon printers with the Accounting Manager software.

SPECIFICATIONS

		GP-526S	GP-546S	GP-566S	
Printer Type		7-Colour, 24", 610 mm	7-Colour, 44", 1118 mm	7-Colour, 60", 1524 mm	
Number of Nozzles		18,432 nozzles (MBK/C/M/Y/O: 1536 nozzles × 2, PBK/GY: 1536 nozzles × 1)			
Max. Print Resolution		2,400 × 1,200 dpi			
Nozzle Pitch		600 dpi × 2			
Line Accuracy*1		± 0.1% or less			
Min. Ink Droplet Size		Min. 4 Picolitres per colour			
	Sales Ink	160 ml, 330 ml, 700 ml
