QUICK WARM-UP TIME

Quick First-Print

Canon's proprietary On-Demand Fixing Technology transfers heat directly to the heating element, reducing warm-up time to the bare minimum.

Traditional Roller Fixing   On-Demand Fixing

Heating entire roller surface results in longer warm-up time and higher power consumption

Heat transferred directly to fixing film reduces warm-up time and saves energy

MINIMAL MAINTENANCE

The imageCLASS MF3010 is virtually maintenance free, thanks to Canon's All-in-One Toner Cartridge 325.
